WELCH, R

The Daily Standard.
Saturday, April 6, 1872.
Our Ottawa Correspondence.

OTTAWA, Feb. 24, 1872.
EDITOR STANDARD.—The Dominion Board of Trade have held their annual session here since my last communication, and their meeting embraced on its official programme several subjects in which not only commercial men, but the people of Canada generally were interested. Politically, as well as commercially, meetings such as this are calculated to do much good. In a new country formed as this is out of a number of semi-independent States, knowing comparatively little of each other, it is highly important that leading commercial men from each should meet together and discuss the wants and feelings of the different communities they represent. The Executive Council of the Board in their report stated that it would be the duty of the Board to make a statement regarding the influence of the proceedings upon the Government or Parliament of the Dominion in reference to commercial legislation. But the proceedings of the Board must have an influence in the quarters spoken of. It may not always be possible to carry into effect the wishes of the mercantile class in their entirety, but anything they say is entitled to be heard with respect, and their proceedings must have some effect upon Government.

Thirty-five subjects were laid before the Board before discussion, and there were on the first day resolved into twenty-two. One of them, "The Treaty of Washington," was struck off the list, the general feeling of the Board being that discussion on the Treaty at this stage of its history would only embarrass the Government, and possibly doing any good, and that therefore no expression of opinion should be given until after the full statement of the policy of the administration had been submitted to Parliament.

One of the leading subjects discussed was "International Trade, or our trade relations with the United States." The Hon. John Young, of Montreal, spoke at some length on this point, advocating Free Trade and the benefits that would arise from a Zollverein. Other speakers hinting that such a course would tend to annexation to the United States, he replied that he had no fear of such an issue; on the contrary he believed that the United States and Great Britain would unite to form the great Empire of the future. He then moved that "the Council be instructed to appoint a delegation to confer with the National Board of Trade of the United States at Washington" on this subject, which was carried.

Mr. Howland, of Toronto, next moved on the same subject that "the alteration of our trade relations with the United States could not be entered into so far as the idea of a Zollverein is concerned; but we would express at the same time our most cordial willingness to negotiate with the United States for the purpose of relieving the trade between the two countries of all restrictions interfering with the legitimate position of trade, in so far as may be found beneficial to the interests of each country." This also, after some discussion, was carried.

A discussion on canal and river improvements was exceedingly interesting, but as more especially concerned the Lower Provinces your readers will scarcely care for details of it. The trade and commerce of Montreal, promises an increase in the future, even more steady and rapid than it has been in the past. The Allan line of steamships are it is understood to have a vigorous opposition; and the comparative monopoly enjoyed by them of the trade with Europe will cease. Probably annihilation of the present business done by the Allan line will result from the establishment of a rival line, for the opening of new rail ways, will so augment the trade of Montreal that their line can go on as usual, and at the same time leave the other lines fair and profitable carriers. The great drawback is and has been the St. Lawrence channel between Montreal and the sea. The Allan now require a channel 25 feet deep to accommodate their new steamships if they are to come up to Montreal without lightening at Quebec. A Montreal merchant lately told his fellow citizens that they must grapple with the difficulty themselves and pointed to the energy displayed by Glasgow in precisely similar matter. "If," said he, "the Glasgow merchants had waited until the Imperial Government had deepened the Clyde for them, they would have found themselves waiting upon Providence in the Parliament lobby."

The meeting was brought to a close on the 20th ult. their final act being the adoption of an address to the Queen tendering their congratulations on the recovery of the Prince of Wales, and recording the expression of their esteem for Her Majesty's character as a Sovereign and a mother, and of their attachment to herself and family.

Judging from the notices in the Canada Gazette, Parliament will not be deficient in applications for Acts of Incorporation of Railway Companies during the approaching session. There are in the last Gazette nine applications for new charters, and four others for amendments. Among the former are the Canadian Pacific Railway Company; Canadian Pacific Railway Company; Company to construct from Thunder Bay westward; Inter-oceanic Railway Co.; North Western Railway Co. of Manitoba; Central Railway Co. of Manitoba; Company to construct a railway from Lake Winnipeg to the American boundary, and another to construct a line from the boundary to Fort Garry. If half these lines be built in the next ten years, the North West will be pretty well gridded.

The party battle in Ontario continues hot and personal as ever. The Opposition papers believe they have found a tremendous breach in the walls of the Government, in its recently discovered connection with attempts to influence the electors in behalf of a ministerial candidate, Mr. Dickey. Affidavits have been published of men who charge a Mr. Lewes with having promised the Government, which he said was not a religious question, but one of British justice. This case, it will be remembered by your readers, was the shooting of Scott by order of Riel, the rebel insurgent of Red River, at Fort Garry during the trouble there two years ago. Mr. Blake

claimed that the House ought to interfere, because Scott was a resident of Ontario. The resolution was adopted, only one member, Mr. M. C. Cameron, voting against it. No doubt the resolution was introduced for two purposes; first, in order that Mr. Blake might appear consistent; secondly, because he expected gentlemen on the other side of the House to vote against it, and thus to enable him to get up a popular cry against them. But they refused to fall into the trap set for them, and thus the principal object which actuated him in proposing the resolution was not attained. No doubt the members on the Opposition benches would like to see any man punished who set British law at defiance, but at the same time regarded this resolution as injudicious; feeling, however, that the principal object of its introduction was to make capital against themselves if they opposed it, they were justified in supporting it. Upon Mr. Blake alone will rest the responsibility of any bad feeling which may arise in consequence of the introduction of this resolution.

Gov. Archibald's speech on the opening of the second session of the first Parliament of Manitoba, is a document full of importance, and not the milk and water affair such speeches generally are. He says that preparations on an extensive scale have been made for a large immigration this summer. "No part," says he, "of the British Dominions possesses such a field for immigration as the country intervening between the Lake of the Woods and the Rocky Mountains." He suggests, moreover, that the decision of contested elections be entrusted to the Courts of Law, and that County Courts and Courts of Session be established. Besides these, other matters of local importance are proposed. Manitoba bids fair to be as complete a little Province in its machinery—legal, judicial, and legislative—as Her Majesty's possessions. The weather here remains fine and comparatively mild. The snow is just deep enough to suit all lumbering purposes, and a very large business in that staple is anticipated this year.

The Daily Standard

Saturday, April 6, 1872.

PROVINCIAL ASSEMBLY.

Friday, April 5, 1872.

The House met at 2 o'clock, p. m. Present—The Hon. the Speaker and twenty-three members.

THE CONSTITUTION ACT.

The Speaker decided in reference to the question he took to consider yesterday on the motion to amend the Constitution Act Amendment Bill, no matter foreign to the question can be introduced. The other point raised that an amendment can be made after the bill is reported, is sometimes allowed, but rarely introduced. He referred to "May" 471, and "May" 477 respectively. His ruling was that the House had no power in connection with the first point, to deal with the Bill. The hon. gentleman quoted for the benefit of the member for Nanaimo, several precedents. Mr. J. P. Booth quoted precedent.

Mr. Humphreys remarked, it seemed to him the question hinges upon the relevance of the amendment to the bill. He moved that the proposed amendment of yesterday was perfectly relevant. He quoted from "May," page 271.

Mr. Smith agreed with the ruling of the Speaker.

The Speaker said he had decided and would not listen to any more on the question. Hon. members could appeal to the House from his decision.

Mr. Robson quoted a clause from "May." The Speaker told him to read next clause. Mr. Robson declined.

THE LILOOET MEMBERS.

Mr. Jamieson moved that a select committee be appointed to enquire into and report upon the conduct of the two members for Lillooet with respect to the information given by them to the Government regarding the wants and requirements of the said district, the said committee to consist of Messrs. McCreight, Robertson, Ash, Walcott, Semlin, Robson, and J. P. Booth.

He wished to show how the case stands; he denied the charge that there was no information given by him. The impression on the public mind is that the Ministry was right and he was a liar.

Hon. Attorney General and Chief Commissioner. No, no, Mr. Jamieson.

Mr. Jamieson said that may be the opinion of the Ministry. He would move the resolution, to enquire into the matter. The gentleman continued as before.

Dr. Ash seconded the resolution.

Mr. Robson hoped the motion would not be the member for Lillooet. Every one of them pressed; he could understand the motives of giving him credit for the strictest veracity, and every one believes the veracity of the Government in this matter. He himself had as much reason to complain. There was no reason to think the Government wrong on the question.

Mr. Jamieson—I can give a reason.

Mr. Robson could see no reason to follow up the matter.

Mr. Armstrong would render every assistance to the hon. gentleman and would support the resolution, if there were any object to be gained. There may be something in it, but he couldn't see it. The Hon. Colonial Secretary gave a sufficient explanation. All are liable to mistakes at times.

Hon. Colonial Secy. gave a further explanation; it followed as a matter of course he may have lost a certain letter, but it seemed a very extraordinary thing that he could. He would accept, as a fact, the gentleman's statement, that he had received a letter through Mr. Humphreys' hands.

Mr. J. P. Booth could not see anything to be gained, or the gentleman's resolution. Mr. Humphreys regretted to have anything to say in the matter. It had been partially admitted by the Provincial Secy that it was a letter received. It was unfortunate for the member for Lillooet, but the gentleman proceeded to explain further. The substance of the whole matter has been reported over and over again. He would not for a moment be understood to cast any imputation upon the Hon. Colonial Secretary. He would sooner see the matter drop.

Hon. Colonial Secretary replied to the satisfaction of hon. members.

Mr. Beaven urged with all sincerity upon the hon. member to withdraw the resolution, and let them go on with the business of the country; the session is almost at a close, and a good deal to be done. There is no doubt on the mind of the House, but that the gentleman referred to, did their duty. If the resolution was not withdrawn he would submit an amendment, that in the opinion of this House, the conduct of the members for Lillooet with regard to giving information to the Government in respect of the wants of the Lillooet district was all that could be done under the circumstances, and all that was necessary.

Mr. Smith remarked there was but one feeling and that was the hon. gentleman did their duty, and he only regretted that Mr. Jamieson still persisted in his resolution. He would do well to accept the amendment if the resolution were withdrawn.

Mr. Beaven would withdraw the amendment if the resolution were withdrawn.

Mr. Jamieson would object to the amendment; gentlemen know nothing of the matter. He firmly believed the whole thing was a predetermined scheme of the Government to blacken the character of the members for Lillooet in the eyes of their constituents.

Several cries—No, no.

The resolution and amendment were lost 13 to 3. Several members did not vote.

SEKANA TRAIL.

Dr. Ash moved that the papers relating to trails and roads from Skeena to Omineca be read.

There is a general feeling that the Government hadn't acted fairly to the matter.

Hon. Chief Commissioner seconded the resolution.

Mr. Robson moved to add, and that a Select Committee be appointed to enquire into the matter, and report upon the same, with power to send for papers and persons that the Committee consist of Walker, Ash, Hunter, Robson, Beaven, and the mover.

Mr. Armstrong moved that the bridge on Skeena's road, over the Thompson River, be considered at the same time. If the Government buy up the chartered roads, it is but right to buy up the chartered bridges.

Hon. Mr. Walker spoke to a point of order. This latter was a foreign matter altogether. The Speaker admitted the amendment.

THE PROLOGUE.

Mr. J. P. Booth rose to a question of privilege. He would like to know if the House were to be prorogued on Monday, if it would be impossible to get through the business there was so much to be done.

Hon. Attorney General had spoken to the Governor with regard to the question, and the Governor was likely to consider what was best to be done in the interest of the community, but what he would do, (Mr. Creight) did not know.

SEKANA ROAD RESUMED.

Hon. Mr. Walker again called attention to the resumption of the road, which was entirely foreign to the original question. They might as well tack on to this the question of the Canadian Tariff.

The Thompson river bridge involved a payment of twenty or thirty thousand dollars.

Hon. Attorney General said the amendment was simply equivalent to sending an address to the Governor asking him to appropriate some \$30,000 to buy up the trail.

Further discussion transpired; the original motion, it was stated, was to the effect that the matter of a bridge and a matter of country was not with the question of raising road tolls.

There was a cross fire between the member for New Westminster District and the member

for Nanaimo, both occupying the floor at the same time.

Mr. Robson called Mr. Armstrong to order. The Speaker—I call you both to order—all down, gentlemen. (Laughter.)

The member for Nanaimo was allowed to explain, and was followed by Mr. Armstrong, who said the Skeena road was pretended to have been made, and the makers now want it taken off their hands. [Hear, hear.] There is nothing to be considered. If the matter of tolls is to be considered, there is the same right to consider the tolls in the other cases. As for the Chinese, they were not for the Skeena.

In reply to Mr. J. P. Booth, Mr. Armstrong said he held no jealous view of the Skeena route.

Mr. Booth considered it necessary to get evidence on both sides, relative to the Skeena road; the other was quite irrelevant.

Mr. Smith was sorry his district seemed to give hon. gentlemen so much trouble. He heard nothing of the people wishing the tolls taken of the bridge; they had enough done already. (Laughter.)

Mr. Armstrong's amendment was lost.

Dr. Ash's amendment, with Mr. Robson's rider, was next proposed to be put.

Hon. Mr. Walker offered an amendment, as there was no use in taking up the time of the House reading papers. He moved that the papers be referred to a Select Committee to report upon. Carried.

PUBLIC APPOINTMENTS.

Dr. Ash moved the following resolution: That in the opinion of this House it is the duty of the Executive Council in the matter of appointments to public offices, to advise the Government to appoint to such offices persons, if such there be, from amongst the actual residents within the Province. He moved this because it was stated it was the intention of the Government to send to Canada, or else to the United States, a very capable man to be in charge of the Province, if it were made known. In other countries it is customary to advertise for persons who might consider themselves capable, and it would be a good practice to follow here.

Mr. Robson seconded. They found a man among themselves for Governor, and a good Governor. What would Canada think if a Superintendent of Education were sent for? The pioneers of this Province are entitled to any patronage in the hands of the Government. The Government and the head of the Government must be acting inconsistently by importing officials to fill subordinate positions.

Hon. Attorney General said the motion seemed to be made under a misapprehension. Nothing had been said about sending for a Superintendent of Education; it was said in the House that no one was known by the Government in the Province as likely to be educated for the position. He would say that if proper persons were found, the Government would consider their claim first. A resolution of this sort, if passed, does not diminish the responsibility of the Government. With regard to the appointments made, or to be made, it had not been, nor was it the intention of the Government to import any officers from abroad, if fit and proper persons were to be found here. [Hear, hear.]

Mr. J. P. Booth would rather leave the matter in the hands of the Government, and for this reason he would not vote for the resolution. Again, he would not support its proposition to appoint men to positions, simply because they were pioneers only.

Mr. C. Booth said this resolution was not of that castiron nature, that the Ministry were bound by it. He was not prepared to officiate the intention to pass it; however, there is no harm in it; it was only a reminder that actual residents should have a preference.

Dr. Ash said his object was for the House to express an opinion that persons who are natives of the Province should have a preference. He referred to the influence of having interest in procuring situations.

Mr. Humphreys wished to say something, but the Speaker said he was putting the resolution, and must not be interrupted.

Resolution carried unanimously.

REGISTRATION OF FOREIGN COMPANIES.

Hon. Mr. Walker asked leave to introduce a bill to make provision for the registration, in British Columbia, of certain foreign companies; leave granted; read a first time, seconded by Mr. C. Booth. Second reading for Monday.

Mr. Humphreys asked the indulgence of the House to alter the law of bill of sale. His object was to give people in the upper country sufficient time to send down bills of sale for registration. He could cite several cases of hardship which occurred in his district.

Hon. Mr. Walker replied to the effect that 21 days was amply sufficient.

Hon. Colonial Secretary said the rights of creditors should be equally considered.

Hon. Attorney General further explained the inadvisability of interfering with the matter, as it at present stood. Creditors have to be considered as well as debtors.

Mr. Smith said this was all out of order; there were several bills waiting to be taken up.

Mr. Semlin said if the number of Registrars were increased, the hardships complained of might be obviated. The matter then dropped.

THIRD READINGS.

The report on the Births, Deaths, and Marriages Bill was adopted; read a third time and passed.

The report on the Constitution Amendment Bill was adopted; read a third time and passed.

The report on the Public Works Bill was adopted; it was moved to be read a third time.

Mr. J. P. Booth moved to recommitt this bill, in order to make certain technical amendments.

The bill was recommitted, and section 8, providing for form of oath to arbitrators, and several further clauses were amended, and occupied a good deal of attention from the Committee.

The bill was reported complete with amendments; report received, to be adopted to-morrow.

The report of the Committee on the Qualification and Registration of Voters Bill was adopted. The bill came up for a third reading.

Mr. R. Smith moved to strike out the reading qualification of voters. Indians and Chinamen don't bother themselves. A Chinaman, so long as he has his tail, doesn't want to be a voter. [Laughter.]

Mr. Humphreys, in an earnest appeal to the House, supported Mr. Smith's amendment. Not a member of the House dare go back his constituents for re-election if he weren't in favor of such a measure as this. He gave credit to the Government for the concessions and alterations already granted in the bill before him.

Mr. Armstrong would go a great deal further; he would strike out all in the clause from the word "mentioned" in line 7, to "small" in line 24—property, lodgings, and other qualifications.

Mr. Robson heartily supported the amendment to strike out the word "reading" in the clause. He saw the benefit arising in the United States and other countries, from a liberal franchise. He had no antagonistic feeling against the Ministry, but the voice of the people demands it.

Mr. Robson subsequently amended Mr. Smith's amendment.

Hon. Attorney General opposed striking out the reading qualification, as it would allow Indians and Chinamen to vote—and who wanted not constituents? and this reading qualification was the only check. He regretted the position in which the many respectable foreigners in the Province were placed. Considering the proposed public schools, foreigners will have every opportunity to learn to read. If there were no Indians and Chinamen here, he didn't see why they

shouldn't go in for universal suffrage. But in our case we must avoid it, for the reasons given; he knew no other. Active politicians could run in two or three hundred Indians any time in order to get power, and there were some here anxious to get it, not caring how they obtained it.

Mr. Booth was desirous to legislate in order to assist in the privilege of the franchise. He had thought a great deal over the matter. The House was in an anomalous position with regard to Indians; the Dominion Government does not allow legislation to be made in regard to them, and the House was clear; he would at once vote for striking out and adopting the amendment of the member for Nanaimo, but that they would be opening the door to political fraud and lawlessness. It would be a dangerous weapon in the hands of an unscrupulous politician. He would regret any action which would lead them into a position which would allow the Chinese franchise. Mr. Booth spoke against sweeping a revolution as was proposed. In common with others, he regretted the position in which foreigners were placed; but in endeavoring to do justice to the few, they should be careful lest they would not be doing an injustice to the many.

Mr. Hughes had given the matter a great deal of study, and he was unprepared to do anything which would give the franchise to Indians and Chinese.

Mr. Humphreys referred to the Registration of Births, &c., Act wherein a clause was inserted excluding Indians and Chinese from the provisions of same—why not do the same in this case? He would move to apply here? [Hear, hear.]

The Hon. Colonial Secretary opposed the amendment. The resolution of the member for Nanaimo was of a very capricious character. If it were possible to extend the franchise to those persons at Nanaimo who were disfranchised, without admitting Indians and Chinamen, he would certainly support the resolution.

Mr. Beaven observed that Hong Kong Chinamen could vote as the original resolution stood. He would be sorry to see Chinamen in the House, but he had no objection to North American Chinamen. [Laughter.]

Mr. Robson, accepting Mr. Humphreys' suggestion, proposed to insert a clause excluding Chinese and Indians from the provisions of the Act.

Mr. Smith said the whole thing was out of order; the member for Nanaimo had no right to a reply. [Cries of "order, order—question, question."] The motion of Mr. Robson was carried—12 to 9.

Yeas—Messrs. Robson, Robinson, R. Smith, Hunter, Humphreys, Bonster, Armstrong, C. Booth, Hughes, and Mr. Walker. Nays—Holla, McCreight, Robertson, Walker, Holbrook, and Messrs. Beaven, Ash, Smith, Todd, J. P. Booth.

J. P. Booth had pleasure in seconding Mr. Robson's motion, the thought as the amendment had been passed, allowing Chinamen and every other person to vote, the property qualification should also be taken off.

Mr. Humphreys in supporting the amendment said that there was nothing more exclusive in the bill as this property qualification.

Hon. Provincial Secretary said he should vote in favor of the resolution, as the House in passing the last amendment had expressed themselves in favor of universal suffrage. The amendment was carried unanimously.

Mr. Armstrong moved that the qualifications connected with the bill be struck out, should not vote unless they had made use of their mine's license, be struck out. Carried.

Hon. Colonial Secretary moved that the Schedule of claims to register mining claims be altered, in accordance with the above amendments. Carried.

Clause 13 relative to schedule of pre-emption claims was adopted.

Clause 14 passed without amendment.

Mr. Robson moved that the following clause be added to the bill: "that nothing in this act should be construed to extend, in whole, or apply to Chinese or Indians." Carried.

The report on the bill was adopted; the bill was read a third time and passed. The House then adjourned till 7:30 p. m.

AFTER RECESS.

The House re-assembled at 7:30 o'clock, and went into Committee on

WAYS AND MEANS.

Mr. Hughes in the Chair.

Hon. Colonial Secretary said it was necessary for the House to provide the supply for the use of the Government for the year ending Dec. 31, 1872. He was happy to say that it would not be necessary to provide any new taxes, that the amount of credit of the Government after voting the amount required, would leave a balance in the treasury of \$1,705.87. He would move the following resolution "that the sum of \$422,328.75 be granted to the use of Her Majesty, &c., for the year ending Dec. 31, 1872, out of the Consolidated Revenue Fund of the Province."

Hon. Attorney General seconded the resolution, and it was carried.

Hon. Colonial Secretary moved that the sum of \$50,000 be granted out of the Consolidated Revenue Fund of the Province, to Her Majesty for the service of the year 1871. Seconded and carried.

The Committee rose and reported the resolution; considered; read the first and second time, and agreed to.

Hon. Attorney General asked leave to bring in a bill to grant a Supply; leave was granted; the bill read the first time.

The second reading was moved.

Mr. Robson said if the House had any security that the Legislature would not be prorogued until after the important measures that were now before it had been passed, there would be no objection raised to the passage of the Supply Bill.

Hon. Mr. Walker asked the hon. member for Nanaimo to withdraw the proposition, as he could not draw a dollar for the use of the Treasury until the Supply Bill were passed. As to the prorogation of the House, he could not say whether it would be prorogued or not.

Mr. Humphreys said the opposition was reasonable because the House was without an assurance of the Government, that it would not be prorogued until the important measures now before it had been passed.

Mr. Armstrong favored the second reading to-night, and then give the assurance that the House would not be prorogued until the Supply Bill were passed.

Hon. Colonial Secretary did not believe that the Governor would prorogue the House, leaving business in an unfinished state. He thought the time might be extended to-night. He asked the second reading to-night.

The second reading was postponed until to-morrow, the vote not being unanimous.

HAWKERS AND PEDDLERS BILL.

The House went into Committee, Mr. Cogswell in the Chair, to consider the advisability of introducing a Hawkers and Peddlers Bill.

Mr. Bonster moved that a bill be introduced to strike out the word "Hawkers and Peddlers" in the Province.

Dr. Trimble moved an amendment that this impost be only applicable to the Island.

Mr. Humphreys would ask the opinion of the hon. Attorney General on the subject.

Hon. Attorney General said that such a tax would not be illegal.

The resolution was put and carried 12 to 9. The Committee rose and reported the resolution, which was received and the Committee discharged.

The resolution was read the 1st and 2nd time; to be considered to-morrow.

GAME AMENDMENT BILL.

Mr. Beaven moved the second reading of this bill which was carried. The bill was committed. Mr. Hughes in the chair.

THE BULLS.

The bill enacts that wild pigeons are excluded from the operation of the Game Ordinance. The Committee rose and reported the bill complete. It passed the third reading.

WILD LAND TAX BILL.

The House went into Committee to consider this.

Mr. Smith moved that this House consider it advisable to impose a tax of—cents per acre on Wild Lands.

Dr. Ash would ask the hon. Attorney General if it would be legal to pass an Act imposing a new tax at so late a period of the session and after that the bill of supply had been passed.

Hon. Attorney General answered, that according to rule, it was not legal, unless it was done away with the necessary force of the Speaker, and he would not do it.

Mr. Robson said according to this rule, the bill to tax hawkers and peddlers could not be passed.

Mr. Smith said it was in the power of the House to impose this tax, and quoted from "May" to that effect. He moved that the Committee rise and refer the question to the Speaker, and ask leave to sit again.

The Speaker decided that the resolution was in order, and the House again went into Committee.

Dr. Ash said that no tax could originate except from the Government.

The chairman replied that the Speaker having ruled the resolution in order, he should also so rule.

Hon. Mr. Holbrook spoke against the resolution.

Hon. Chief Commissioner said it was not a question of revenue. He thought it was time that some action were taken in this Province to rescue some of the fine agricultural lands which were locked up in the hands of speculators. Large amounts of land were now around New Westminster and Victoria. When this tax is put on, the owners would improve their lands, which was the object of the tax, and sell them to persons who would improve them.

Mr. Bonster seconded the resolution.

The resolution was carried.

The Committee rose and reported the resolution to the Speaker—the resolution to be received to-morrow.

INHERITANCE BILL.

This bill passed the second reading and was committed—Mr. Hughes in the chair.

Mr. Semlin explained the nature of the bill. It was a bill to amend the law of primogeniture, which is now in force in this Province. This law has been abolished in Ontario and the Australian Colonies.

The bill passed without amendment.

The Committee rose and reported the bill complete. The bill passed the third reading.

TAX SELL REPEAL BILL.

The House went into Committee on this bill—Mr. Smith in the chair.
